EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Bruce E. Garlick on December 7, 2004.

The application has been amended as follows:

Claim 1. (currently amended) A method of operating a base station to wirelessly transmit data communications to a plurality of user terminals on a carrier, the method comprising:

repeatedly and sequentially wirelessly transmitting time division multiplexed slots to the plurality of user terminals on the carrier, wherein at least one of the time division multiplied multiplexed slots carries data/control intended for the plurality of user terminals, and wherein the time division multiplexed slots each include a preamble;

wherein the preamble includes an indication of the data rate of the data/control carried by the time division multiplexed slots; and

wherein the preamble includes a plurality of [[a]] user identifiers that identify the plurality of user terminals.

2. The examiner's amendment corrects minor typographical errors in the claim.

3. The following is an examiner's statement of reasons for allowance: in addition to distinguishing from the prior art of record, the current claimed subject matter differs from the parent (09/766,267) in that the parent is directed to the superframe/frame structure, rather than the time division multiplexed slot/preamble structure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Melvin Marcelo whose telephone number is 571-272-3125. The examiner can normally be reached on Mon-Fri 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hassan Kizou can be reached on 571-272-3088. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
